Personalized Comfort, Designed Just for You

Every person's needs are different, that's why PnueAira™ allows your care team to customize your therapy in real time.

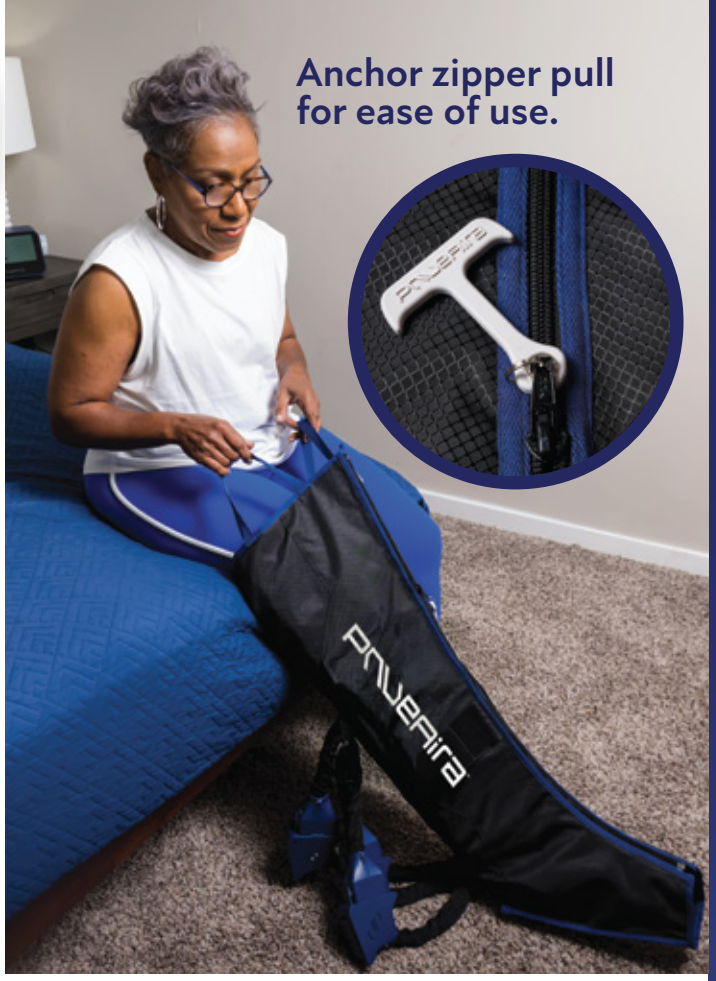

Your treatment can be tailored through:

- Adjustable pressure settings for your comfort
- Individually controlled chambers for precise therapy
- Personalized programs designed by your clinician
- Treatment configurations that fit your unique needs, up to 32 chambers

Garments Options

- **Core Garment:**
  Supports your body's central circulation and fluid flow.
- **Full Leg Garment:**
  Provides complete 360° coverage

PnueAira™ is Used to Support Treatment for:

- Lymphedema
- Swelling after mastectomy
- Venous insufficiency
- Lipedema
- Swelling from injury or after being immobilized
- Reducing wound healing time in conditions such as venous ulcers, diabetic leg ulcers, and stasis dermatitis

At BioTAB, we go above and beyond, because to us, every patient is family!

At BioTAB, care isn't just one of our core values, it's the heart of everything we do. Living with lymphedema can be challenging, but ordering and receiving a compression pump through us shouldn't be.

- We contact you within 24 hours to schedule your setup and answer any questions
- Our local specialists visit you at home to ensure a comfortable, confident fit
- We stay in touch even after setup, because real care doesn't stop when the device arrives
- Clinics trust us, patients appreciate us - everyone feels supported every step of the way

BioTAB delivers more than a product, we deliver care.

PNEUMIRA™
